

PAID WORK - CASTING CALL

BA(Hons) Film & TV Production at LCC are looking for actors to participate in multi-camera TV Studio Fiction projects - current UAL students or graduates

Where & When? LCC [TV Studio](#), Elephant & Castle

- **Rehearsal 1** (2 hours): TBD, between 7-11 Dec 2026 (UAL week 11)
- **Rehearsal 2** (2 hours): TBD, between 11-21 Jan 2026 (UAL weeks 12,13)
- **Recording Sessions** (3 hours): TBD, between 22-29 Jan 2027 (UAL weeks 13,14)

How many days? The plan is to recruit a small pool of actors to rotate through the projects. These would be PAID through UAL's Arts Temp - rate is all-inclusive (no additional expenses will be covered). Each project role includes 7 hours. We're happy to offer roles on multiple projects if you're available, and we'll aim to schedule group rehearsals on the same day to help minimise travel costs.

The projects made in this unit will be suitable to all alumni and students from all backgrounds and ethnicities – we are keen to work with a diverse company of actors. They will be made to a very high specification with impressive production values in our broadcast standard TV Studio. They will be 8-minute long and recorded 'as live' enabling the performers to showreel their skills to the fullest. The projects will be a range of genres from Sitcom to SciFi and many others (images from previous year's projects)

This is for a Block 1 second year unit, so could also be a great opportunity for students or graduates to establish longer term connections that could lead to future work on other Film & TV projects.

If interested, please complete the Arts Temp application with the below information/attachments by deadline: **13th November 2026**

- a short Self Tape (max 3 mins) that shows a range of roles
- a brief Biog Statement
- a few words on the kinds of roles/projects you are interested in
- a note on availability issues in this period.
